Real Estate Risk Disclosure:

- There is no guarantee that any strategy will be successful or achieve investment objectives including, among other things, profits, distributions, tax benefits, exit strategy, etc.;
- Potential for property value loss – All real estate investments have the potential to lose value during the life of the investments;
- Change of tax status – The income stream and depreciation schedule for any investment property may affect the property owner's income bracket and/or tax status. An unfavorable tax ruling may cancel deferral of capital gains and result in immediate tax liabilities;
- Potential for foreclosure – All financed real estate investments have potential for foreclosure;
- Illiquidity – These assets are commonly offered through private placement offerings and are illiquid securities. There is no secondary market for these investments.
- Reduction or Elimination of Monthly Cash Flow Distributions – Like any investment in real estate, if a property unexpectedly loses tenants or sustains substantial damage, there is potential for suspension of cash flow distributions;
- Impact of fees/expenses – Costs associated with the transaction may impact investors' returns and may outweigh the tax benefits
- Stated tax benefits – Any stated tax benefits are not guaranteed and are subject to changes in the tax code. Speak to your tax professional prior to investing.
